### **PTA-LEAD EVENTS AND PROJECTS**

The PTA had a discussion regarding possible projects and ideas which could by lead or be initiated by the parents.

Feedback from the PTA meeting participants included:

- DP and MYP to be invited to assist more at PTA events. Mustafa to advise how the students can get points from volunteering and assisting at PTA and school events and projects. New games and other interactions between senior and jnr students can also be introduced.
- Investigate the ClassList App wtr communications.
- Investigate a Gallery on the website or other platform to upload and share student photos.
- Review website as a whole.
- As 1h meeting is limited, no need for introductions/ icebreakers, time should be spent to brainstorming and planning future activity only.
- Huge interest in Green School project/ Sustainable project
  - Project needs a dedicated person from PTA and from the school side. (Eirini Tsaggari volunteered as lead on the project)
  - Suggestion: PTA should organise a clothes flea market at school twice a year (Oct and April), where parents could donate clothes that have gotten too small and purchase clothes for 10kr each.
  - Suggestion: School lunch should have meat free days.
  - Action: Talk to student council about ideas the students have for making the school more green and present ideas at next PTA meeting.
  - Action: remind parents and students of the green things already been done and what should be done (e.g. green breakfast etc).
  - Action: Put together a green policy for the school
  - PTA should understand about school's units of enquiry and the IB mindset and link the values to its activity
- Feedback: school communication channels should be reviewed and consolidated where possible. A weekly summary email/ newsletter covering all key dates for the school would be very helpful for parents.
